Great Lakes Tech Park – Thomas Twp., Saginaw County, Michigan**

Dear Mr. O'Connell:

The Great Lakes Tech Park property is owned solely by the Saginaw County Economic Development Corporation. The property is listed for sale for \$24,000 per acre for high tech manufacturing and related uses. The property was acquired to foster economic development and the property remains available until a qualified buyer(s) is identified and the property sold.

The 114 acres available for sale and development are subdividable provided the corresponding site plans meet Thomas Township zoning standards.

Sincerely,

Michael J. Hanley
